PAPERS

Wave Propagation and Scattering

Spectral Domain Optical Theorem and Radiative Transfer in Random Media With Large-Scale Fluctuations	<i>S. Mudaliar</i>
Tomographic Imaging of Meta-Shells	<i>G. Samelsohn</i>
Characterizing Range-Dependent Variations of the Evaporation Duct: A Meteorological Perspective	<i>D. P. Greenway, A. E. Vaughan, A. J. Kammerer, and E. E. Hackett</i>
A Gain-Reconfigurable Reflector Antenna With Surface-Mounted Field-Induced Artificial Magnetic Conductor for Adaptive HIRF Prevention	<i>S. Zha, Z. Qu, J. Zhang, D. Zheng, and P. Liu</i>
Cylindrical Microwave Body Scanner—Part I: System Configuration and Image Reconstruction	<i>W. Shao and B. Zhou</i>
Cylindrical Microwave Body Scanner—Part II: System Evaluation by Image Quality Assessment	<i>W. Shao and B. Zhou</i>
3-D Geometric-Based Indoor Stochastic Modeling Using Inverse Parabolic Scatterer Distribution	<i>A. Kaushal, V. W. Paradkar, and J. Mukherjee</i>
