

IEEE TRANSACTIONS ON ANTENNAS AND PROPAGATION

A PUBLICATION OF THE IEEE ANTENNAS AND PROPAGATION SOCIETY

SEPTEMBER 2025

VOLUME 73

NUMBER 9

IETPAK

(ISSN 0018-926X)

PAPERS

Numerical Methods

- [Estimating Electric Field Distribution Generated by V2X Vehicular Communication in Urban Scenarios With Spatial Interpolation Techniques](#)
..... M. Benini, S. Gallucci, S. Goegebeur, M. Parazzini, W. Joseph, and G. Tognola
- [Exact Power Pattern Bounds for Arrays Affected by Calibration Errors and Mutual Coupling](#)
..... G. Geréb, H. K. Arnestad, T. I. B. Lønmo, J. E. Kirkebo, S. P. Näsholm, and A. Austeng
- [From Spins to Beams: Antenna Array Synthesis and Optimization Using Simulated Bifurcations of Parametric Oscillators](#)
..... Q. J. Lim and Z. Peng
- [Techniques for Obtaining Non-Divergent Series as Alternatives to Divergent Asymptotic Series for Special Functions and Integrals](#)
..... A. Uzer
- [Completed Near-Field Reciprocity Relationship for Brightness Temperature Transfer and 3-D Modeling Investigation](#)
..... X. Li, M. Jin, D. Huang, and M. Bai
- [Integrated Conformal Design of Nonelement Frequency-Selective Radome Based on Topology Optimization](#)
..... H.-C. Guo, X. Ding, and W. Shao
- [An Adaptive HODBF Direct Solver for Fast Solutions of Surface Integral Equations in Electromagnetic Analysis](#)
..... Y. Pan, X.-W. Huang, and X.-Q. Sheng
- [A Numerical Study of Efficient Leapfrog CD-HIE-FDTD Method With CFS-PML Technique](#)
..... G. Hou, Y. Chen, G. Xie, W. Ding, Y. Li, and Z. Huang
- [Numerical Solution of the Eikonal and Transport Equations for GRIN Lens Antennas by Using the Lax-Friedrichs Sweeping Method](#)
..... I. Gashi, S. Maci, and M. Albani
- [An Efficient Method for Designing Subarrayed Phased Arrays With All-Azimuth Wide Beam-Scanning Range](#)
..... L. W. Mou, J. X. Sun, and Y. J. Cheng
- [Hybrid Variational Quantum Algorithm Enhanced Subentire-Domain Basis Functions Method With High Learning Efficiency and Better Robustness](#)
..... B. Song, T. Liu, F. Meng, W. Yang, and W. Lu
- [Fully Stable Formulations of the Spherically Layered Media Theory Using Scaled Bessel Functions](#)
..... J. H. Wang and B. O. Zhu
- [Modeling and Analysis of Underwater Wireless Optical Propagation Channels in SIMO-EGG Systems With Arbitrary Receiver Array Geometries](#)
..... F. Yang, M. Yi, and S. Zhang
-
